

at the express office, but could not pack them so.

The charge (\$4.) to Cambridge I have paid. The tree frogs for you are in the middle of the large box. I had to pack rather too hurriedly & to use an old box, but I think it will all be satisfactory. Your fascicle contains some additional material - for determination & dissection - The rest are all about alike, but I wished to know who had each N^o & when you send one to a new subscriber, I will thank you to notify me of the N^o as I have a record of their contents. They each lack ten specimens except the ones for you & Kew.

I will communicate with Genl. Moore as you requested on the 25th ult.

Yours very truly

A. H. Curtiss.

Herbarium of A. H. Curtiss,

Salleyrand Place, near

Jacksonville, Florida., March 3, 1879

Prof. A. Gray -

Dear Sir - I have to-day shipped my winter's distribution, half of it being consigned to the care of yourself & Mr. Watson according to previous understanding. The two boxes sent you contain 18 fascicles and 7 parcels for persons living - most of them - in your vicinity.

10 of them are directed & simply to be forwarded, 7 are to be retained till applied for, one is for you, & the rest are to be forwarded according to the following list provided you think the parties want them.

I intended to put all ready for shipment into the small box, so that it might be distributed (see p. 4)

Contents of larger box

- 1 " " " Robinson ✓ x For^e, "

You wrote that a party in Munich wanted the two boxes. I have accordingly sent them to Prof. Baird & written that you would send him the proper address. Charges (2.25) prepaid. I have let so many boxes go to exchangers that there are not many left for future applicants.
